Captain Kendall of the Montrose Tells How He Discovered the Identity Of His Passengers.

Quebec. Aug. 1.-Canadian justice goved swiftly today in the case of Dr. Hawley H. The steamer Montrose on which the fugitives were arrested yesterday while the vessel was still 160 miles from this port, arrived at her pier here at 1:56 velock this morning. The prisoners sere hastened through an enormous rowd of curious ones to the provincial jail, where they were placed in separate cells for the night.

Here they got a few hours' sleep, the est rest either had had since they fed from London on July 9, shortly before detectives found in the cellar of the Crippen home the bits of human flesh, which the authorities have tried to establish once went to make up the body

When the boat swung into her pier, Crippen was still in cabin No. 8, where he was confined yesterday. With him was Detective Denis. Miss Leneve was under close watch of Chief McCarthy in cabin No. 5. Throughout the hight inspector Dew had passed from one cabin to the other, not for one moment relaxing the watch on the prisoners who once slipped through his fingers.

A half hour before the landing the sopers were told that they were aring Quebec. Both had been under pisoers were told that they were bearing Quebec. Both had been under the greatest strain for hours and showed increased restlessness. Crippen, who had been attempting to read a novel, tossed the book aside and dropped his head in his hands in the same despairing attitude that he assame despairing attitude that he as-numed yesterday forenoon when he bard the fateful words: "In the name of the king, I arrest you."

At the same time Miss Leneve in her quarters in another part of the vessel, fell on her knees and gazed out of the pethole into the blackness of the hight. Suddenly she turned back into he room and was seized with a fit of coughing.

It was a nervous cough that racked her and the nerves of her guard who had attended her from the time she col-lapsed following her arrest.

At 19:30 o'clock Capt. Kendall came down the bridge and notified Inspector Diw that in a few minutes his passentes would be taken ashore. Dew notified McCarthy and Denis. Presently Denis emerged from the cabin door with Crippen, whom he held by the arm as they passed both main cabins ha roundabout direction.

Crippen, his face white as death, walked in with a shambling gait. As they passed the state-room which the foctor formerly had occupied with Miss Leneve, the door of that room swung seen and Detective McCarthy half carried Miss Leneve out to the passage-asy.

But she scarcely needed the veil to hide her features, for her had was so bent that no one could have seen her face.

PRISONERS SUPPORTED.

As they appeared on the gangplank and caught sight of the enormous crowd that surged about the pier, desperately determined to get a glimpse at the pair, Crippen and the woman would have fallen but for the arms which supported them.

Crippen's manacled hands swung loosely in front of him. Miss Leneve swayed from side to side. Her closely cut hair still gave her the boylsh appearance which she had tried to adopt and many of the crowd were fooled into thinking that the diminutive figure was not that of the woman who had challenged the attention of two continents and believed the police were using a little boy disguised as a woman to distract the attention of the crowd and so give them opportunity to remove the real prisoner with less inconvenience. Whether he has learned that the British authorities have been unable to identify the dismembered body found in the cellar of his Hilldrop Crescent home as that of his actress wife is not known. Without such identification lawyers say a conviction may be impossible.

Dew has said that Crippen was a coward. Dew, however, has been mistaken about Crippen before now. He was mistaken when he accepted Crippen's promise to remain in London.

There are many today who believe Crippen was taken less by surprise than had been planned. It is certain that his resources for escape had dwindled until he was nearly helpless. He had a railroad ticket for Detroit, but only \$10 in his pocket.

Miss Leneve had not a cent. Crippen, however, did have several jewels concealed on his person.

Capt. Kendall was apprehensive of an attempt at suicide and as Father Point loomed in the distance yesterday afternoon, he was careful to prepare Crippen for the arrival of the river pilot. Crippen and Miss Leneve had risen early and breakfasted together at 6 o'clock. Then Miss Leneve complained of a slight indisposition and refreed to her stateroom. SPAIN'S QUARREL WITH THE VATICAN

Bert S. Durham Kills Engineer, Canalejas Describes Ojeda's Recall as Indefinite Suspension Of Negotiations.

Papal Nuncio Not Recalled From Madrid-Vatican Very Greatly Offended,

Madrid, July 1 .- Premier Canalejas describes the recall of Marquis de Ojeda, the Spanish ambassador to the vatican, as in indefinite suspension of ne

bearing on the controversy between the church and state since the beginning of negotiations.

"The moment I assumed power," he said. "I opened negotiations for a reduction of the religious orders. The vatican replied, offering less than was offered to Premier Maura. We were grievously disappointed, but pursued the issue in a spirit of great moderation.

"Desiring to advance the question without rupturing the negotiations we exercised our right of sovereignty by issuing decrees compelling the orders to register under the law and authoriz ing different sections to display the em blems of public worship. As the vatican replied only with protests, we introduced a bill interdicting further orders until the revision of the concordat had been accomplished.

had been accomplished.

"When the vatican demanded the suspension of the decrees as a condition for a continuation of the negotiations, the government despite its desire to avoid a rupture, decided to consider the negotiations abortive and to proceed to carry out its program by decrees and explanation. The king approved our course. The situation will not retard the visit of his majesty to England next week." England next week."

The Liberal newspapers enthusiasti-cally applaud the "virile, independent act of the government." The Republi-can newspapers promise their support and urge the government to persever in its policy.

VATICAN GREATLY OFFENDED AT RECALL

Rome, July 31.—The papal nuncio at Madrid, Mgr. Vice, has not been recalled by the vatican which is awaiting the official announcement of the recall by the Spanish government of Marquis de Ojeda, ambassador to the vatican. The situation with regard to the rup-ture with Spain therefore remains prac-

ture with Spain therefore remains practically unchanged.

The vatican is greatly offended at the methods adopted by Premier Canalejas in the recall of the Spanish ambassador, as the announcement was made through the press, and neither the papal nuncio at Madrid nor the vatican was notified directly. As a consequence, the papal secretary of state, Cardinal Merry del Val, has not been able to take any measure of retaliation, but it is believed that Mgr. Vice will be instructed to leave Madrid immebe instructed to leave Madrid imme-diately after the official announcement of the Marquis de Ofeda's recall is

The opinion is held in se The opinion is need in some circles, however, that the vatican will give further proof of tolerance by permitting the papal nunclo to remain at Madrid, notwithstanding the withdrawal of the Spanish ambassador as was the case when the French government ordered when the French government ordered the French ambassador at the vati-can to return to Parls. On that occa-sion the papal nuncio. Mgr. Lorenzelli, remained in Parls until diplomatic re-lations were completely broken off, and there are some who still hope that the recall of Marquis de Ojeda is merely temporary, his absence from Rome as suming the nature of a simple vacation and that he will return when an agree ment ha been reached.

NORMAN HAPGOOD'S COMMENT ON THE SITUATION

New York, Aug. I.—Apropos of the present conflict between the vatican and the Spanish government, Norman Hapgood, editor of Collier's Weekly, who has just returned from a trip through Spain and other parts of Europe, said of industrial conditions in Spain.

They are improving, but the wider the split between the government and the vatican becomes, the more rapidly they will improve. New methods both of business and agriculture have been introduced, particularly in southern Spain and the country would forge shead if it could shake off the clerical influence. Quebec, Aug. 1.-Dr. Hawley H. Cripen announced in the provincial court today that he would not resist his return to England to stand trial for the murder of a woman believed by the police to be his missing wife, Belle Elmore, the American actress.

Crippen's companion in flight, Miss Ethel Clare Leneve, was to have been arraigned today, but her custodians reported to the court that she was too ill

The authorities are confident that the woman will give no more trouble than Crippen promises to, and that as soon as the 15 days of grace provided by the extradition laws of Canada have expired the prisoners can be returned to London without any hitch.

When Crippen and Miss Leneve were arrested on board the steamer Montrose yesterday they were charged with identical crimes, the murder and mutilation of an unknown woman. It had been expected that both would be arraigned at 10:30 o'clock this morning and deported on the steamer Royal George, that will sail for England Thursday. However, Inspector Dew received instructions which change the

When this became known the arraignment of the accused was delayed until a new plan of procedure could be mapped out. Miss Leneve was transferred this morning from the provincial jail to a hospital. The girl scarcely has been able to stand since her collapse when she was taken into custody.
